3D

WALL DECOR

3-dimensional*Easy DIY*Lightweight*Natural plant fibres

A high quality, artistic and durable three dimensional wall finish that is environmentally friendly.

Which can be utilised to create stand alone feature walls or a more subtle and subdued atmosphere of elegance and refinement throughout the home or business.

ECO FRIENDLY...

Our unique 3D Wall Decor provides an eco-friendly alternative to standard wall cladding. At a time when the environmental impact of a product is as much a focus as design, this distinctive green product is setting a new trend in wall furnishings and taking interior design to a new level.

Constructed primarily from plant fibres and using environmentally friendly technology, 3D Wall Decor are clearly dedicated to ensuring that their exceptional product enhances your home with minimal environmental impact.

SelectWalls[®]

Make it your home

3D Decorative Wood Panels

The versatility of SelectWalls 3D Decorative Wood Panels makes them suitable for commercial, residential and public areas such as shops, hotels, offices, homes, hospital, airline lounges and many more.

Our wood panels are lightweight, eco friendly, water repellent and easy to install and to clean. They may be applied to ceilings or walls, temporarily or permanently, cut into pieces or used as a whole and can be painted to match any interior. We've received an overwhelmingly positive response to our 3D Decorative Wood Panels from the general public and design community.
